

HISPANIC REVIVAL & PRO-LIFE PRAYER MOVEMENT

WORDS FROM LOU ENGLE...

My friend, Dr. Samuel Rodriguez, President of the National Hispanic Christian Leadership Conference (NHCLC), just said to me a moment ago, "The Hispanic community stands as the firewall of righteousness and justice in America." I believe this statement with all my heart.

It has been My conviction over the last 25 years of ministry that the Hispanic church is the key to the revival prayer movement in California and will be instrumental for a great national turning. Revival in America has been my calling and the Lord has raised up TheCall, in His grace, as a vehicle to carry that vision. However, seven years ago I was apprehended with a clear mandate – to pray for the ending of abortion and a movement of adoption in this nation. Righteousness and justice must flow together.

With this burning in my heart, three years ago a word was given that California would become a pro-life state. Instantly, the thought exploded in my heart, "That will happen ONLY if the Hispanics rise up in mass with a pro-life world view and voice."

About that same time a dear friend of mine, who leads the Bound4Life prayer movement in America had a dream in which a spotlight shone into a darkened room and from the shadows stepped forth an Hispanic man into that spotlight saying to him with urgency, "You are being summoned to California". This dream to me is no less than a 'Macedonian call' and the implications of our response to that call, I believe, could change the nation. The spotlight of God is on Hispanics in America for revival and life – "Aviva!"

Now three years later, the Lord has stirred many Hispanic leaders in California and across the nation, that this is the Hispanic moment for prayer, revival and a pro-life reformation. With this great vision in view, TheCall and TheCall to Conscience are partnering with the NHCLC as the senior partner of their pro-life platform to launch AVIVA, a Hispanic Revival & Pro-life Prayer movement.

On January 21st – 22nd we will gather to launch this two-year prayer and fasting campaign for revival and "California a pro-life state" which will culminate in 2012 with an all Hispanic TheCall solemn assembly located in a southern California stadium or arena.

The 'AVIVA' conference will be held Friday night and all day Saturday at Houses of Light Church on the evening of January 22nd, the anniversary of the infamous 1973 court case Roe v. Wade that legalized abortion in America. We must seize this "present throbbing moment." As California goes, so goes the nation. We are urgently asking you to join with Hispanic pastors, leaders, and others from all over California, to come to this gathering and join this movement. The unfolding vision and information can be found at TheCall.com.

Let this be our watchword – "Hispanic Revival and California a Pro-Life State"

For TheCall,
Lou Engle
